

Due to BREXIT, from 01/01/2021 there were changes in the method of importing goods from Great Britain to EC.

Each delivery - the parcel must pass customs and fiscal clearance: invoices must be translated with the specification of the customs tariff codes for each product, the required certificates attached, customs duties (for some products), customs agency fees and 23% VAT PL tax are charged.

These procedures resulted in significant delays in the delivery of parcels by suppliers.

Therefore, the time of importing goods has been significantly extended beyond our control.

We try to shorten all procedures to a minimum.

Please contact us to arrange a delivery date.
